1. Introduction

This user manual provides step-by-step instructions for using the HR Applicant Processing System. The system is a Windows Forms desktop application built with C# and MySQL that supports both applicant self-service and HR recruitment operations.

1.1 System Overview

The HR Applicant Processing System allows:

- Applicants to register, log in, complete their profile, apply for jobs, upload documents, and track their application status.
- HR Staff to review applications, screen candidates, and schedule interviews.
- HR Managers to make final hiring decisions, manage job vacancies, and generate reports.

1.2 User Roles

Role	Description
Applicant	Job applicants who register and apply for positions.
HR Staff	Reviews, screens, and schedules interviews for applicants.
HR Manager	Makes final hiring decisions, manages job vacancies, generates reports.
Admin	Full system access including all HR Manager capabilities.

2. Applicant Side

This section covers all screens available to applicants after registration and login.

2.1 Login Screen

The login screen features a large heading 'HR Applicant System' in a bold, dark blue font, followed by the subtitle 'Login to your account' in a smaller, lighter blue font. Below the text are two input fields: 'Email Address' and 'Password'. The 'Email Address' field is a white rectangle with a blue border and a blue underline. The 'Password' field is a white rectangle with a blue border. Below the password field is a blue 'Login' button with white text. At the bottom is a light blue button with rounded corners and a blue border, containing the text 'New Applicant? Register Here' in blue.

The Login Screen is the entry point of the application. Applicants and HR users both access the system through this screen.

Step	Action	Expected Result
1	Open the application.	The Login Screen appears.
2	Enter your registered email address.	Email field is filled.
3	Enter your password.	Password is hidden with asterisks.
4	Click the Login button.	If credentials are correct, the dashboard opens.
5	If login fails, a message appears.	Check your email and password and try again.
